Public network access

Public Endpoints allow access to this resource through the internet using a public IP address. An application or resource that is granted access with the following network rules still requires proper authorization to access this resource. Learn more

Public network access

- ○ Disable
- ◉ Selected networks

Connections from the IP addresses configured in the Firewall rules section below will have access to this database. By default, no public IP addresses are allowed. Learn more

Virtual networks

Allow virtual networks to connect to your resource using service endpoints. Learn more

+ Add a virtual network rule

Rule	Virtual network	Subnet	Address range	Endpoint status	Resource group	Subscription	State

Firewall rules

Allow certain public internet IP addresses to access your resource. Learn more

+ Add your client IPv4 address (112.196.95.17) + Add a firewall rule

Rule name	Start IPv4 address	End IPv4 address
ClientIPAddress_2026-4-15_10-14-33	115.244.89.217	115.244.89.217

Exceptions

☑ Allow Azure services and resources to access this server
